**Subject:** [External] Stop the Pipeline

**CAUTION:** External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Governor Cooper,

I hope that you remember the Strum and Ennis families from school. The Atlantic Coast Pipeline is scheduled to run through our property. We are very concerned about the environmental issues. We also do not think that the people in NC will benefit from this pipeline. As we understand it, there will be no taps in Nash County – and in most or all of the state. This pipeline is intended to benefit the energy companies at the cost of the rural land owners. I feel like Dominion is stealing our property value and endangering our lives and the state's environment for no reason but to profit themselves. I believe in being a good steward of the land and have tried to teach my children that value. I am counting on you and the state of North Carolina to be good stewards, too. Please do not approve the 401 permit for the Atlantic Coast Pipeline. I know that you would not want this dangerous pipeline in your backyard, and I hope that you do not allow it to be placed in mine. I know you care deeply about our state, so please protect our state from this dangerous situation.

I strongly encourage you to require DEQ to hold public hearings on the additional information submitted by the ACP.

Best regards,

Jim and Jackie Strum Ennis
